# SECURE YOUR SCHOOL

With the Smarter, Stronger Way to **STOP** an Active Threat

## HAVEN LOCKDOWN

# WHY HAVEN

When the safety of our kids is threatened in the very places they should feel most protected, we need an active solution to an active danger. We believe students and teachers should never have to worry about their security at school. That's why **HAVEN** was created, to give peace of mind and the toughest line of protection to our most treasured resources: our children and family.

**HAVEN** was founded by former members of the military and law enforcement. They know what real danger is, and have created rock solid defense systems like **HAVEN Lockdown™** to put an end to active violence in our schools, churches, and offices.

One motion  
unlock compliant

We are a critical part of an active threat safety plan.

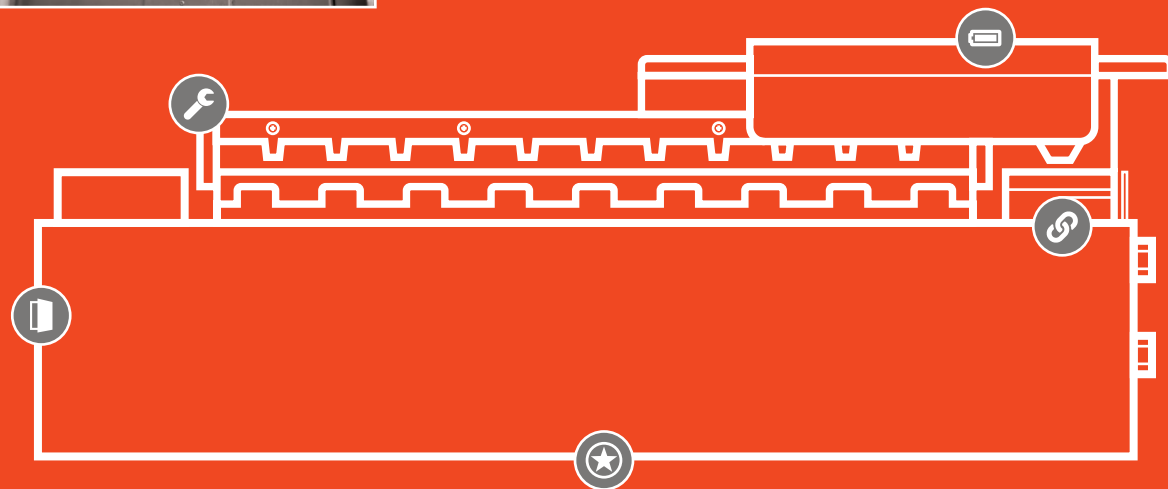

**HAVEN Lockdown™** is a revolutionary, affordable smart door lock that activates in seconds to help prevent an intrusion into a classroom, giving peace of mind to students and total security control to administrators and authorities.

We are returning control to faculty and staff.

**HAVEN Lockdown™** gives teachers and administrators options of individually locking down classrooms within seconds. This provides school staff the access control they need while providing peace of mind to administrators and first responders.
