

## EASY INSTALLATION

Lockdown installs easily, has low maintenance costs and universally mounts on inswing and outswing commercial doors.

## GREATER STRENGTH

HAVEN Lockdown has endured rigorous testing and proven it is 10X stronger than most conventional locks.

## MUTIPLE LOCK POINTS

Lockdown has four forms to activate and unlock. It can be locked and unlocked manually on the lock, with panic/egress buttons, with a mobile app, and the key fob.

*The quality, the simplicity, and the durability was exceptional. We tested the strength and what it could withstand was unbelievable. We couldn't breach them. I looked at many other options and, comparatively, HAVEN Lockdown hit it out of the park.*

CASE STUDY

## HAVEN LOCKDOWN HELPS NASHVILLE SHERIFF'S OFFICE WITH INTERNAL HARDENING

### OVERVIEW

Located in Nashville, TN, the new Davidson County Sheriff's Office (DCSO) Headquarters is a shining example of the dedication to safety in the community. The former building was destroyed by a tornado in 2020, which gave Sheriff Daron Hall and his team the opportunity to rethink their security.

### NEED

DCSO was looking to **improve their internal hardening** for their new facility. They wanted to support their culture of investing in the best security for their staff, but knew they had a gap in their physical security when it came to creating saferooms or lockout rooms.

### SOLUTION

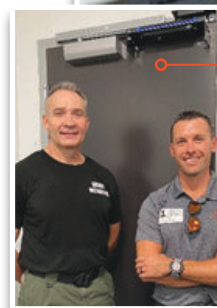

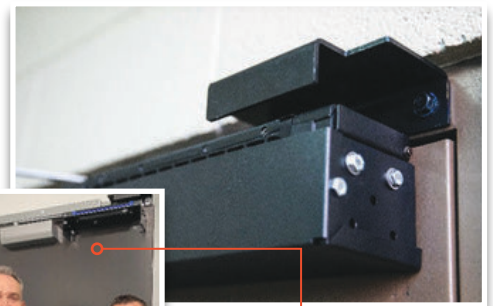

They installed the HAVEN Lockdown to **create several saferooms** or lock out rooms. After a trial period they decided to install many more.

### BENEFIT

The DCSO now has access to saferooms, or lock out rooms for occupants and employees for shelter should an attack arise. HAVEN Lockdown supports the DCSO vision of giving the staff the **power to act quickly and simply to protect themselves, while improving morale and peace of mind everyday.**

*"The level of security it brings meets the specific needs of an active threat situation. The quick securing motion works in a "high heart rate" environment when you look to facilitate gross motor skills instead of fine motor skills."*

## EASY INSTALLATION

Lockdown installs easily, has low maintenance costs, and universally mounts on in-swing and out-swing commercial doors.

## GREATER STRENGTH

HAVEN Lockdown has endured rigorous testing and has proven it is 10X stronger than most conventional locks.

## MULTIPLE LOCK POINTS

Lockdown has four forms to activate and deactivate. It can be locked and unlocked manually on the lock, with panic/egress buttons, with a mobile app, and the key fob.

*After experiencing how they operated, we decided we wanted it to be a whole campus security solution; we didn't want it to be just "some" rooms. We put in 24 total, we have at least 18 more to go. We want every classroom to be secure, we want every parent to see that their child is secure.*

## HAVEN LOCKDOWN HELPS SAINT SEBASTIAN CREATE A SAFER SCHOOL

### OVERVIEW

Located in Akron, OH, the Saint Sebastian Parish School has been on a security improvement journey for the past 10 years. One of their main focus areas recently has been on the classrooms.

### NEED

St. Sebastian was looking to **improve their internal hardening** for their school. They knew that the safest thing that they can do in a lockdown situation is to keep the students in the classroom and to protect them for the 6-12 minutes it takes for the police to get here.

### SOLUTION

They installed HAVEN Lockdown to **create several saferooms** or lock out rooms. After a trial period, they decided to install HAVEN Lockdown on all the classrooms.

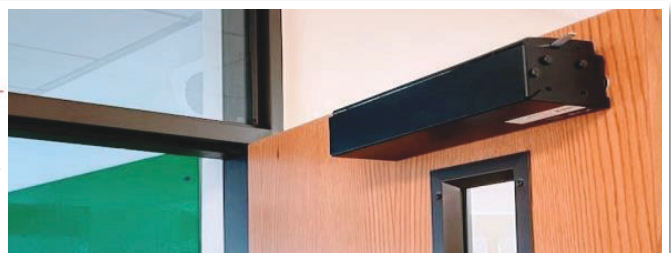

### BENEFIT

The students and teachers now have a secure and safe location right in their classrooms. The teachers can now respond to any threat quickly and simply. HAVEN Lockdown supports the vision of the school to grow the mind, body, and spirit of the students in the safest environment possible.

*When every minute matters, this takes care of lockdown in seconds. I tell the parents that this is our new security feature to get the students in the classroom secured, locked down, and protected quickly.*

Principal – St. Sebastian Parish

CRIME SCENE DO NOT CROSS

CRIME SCENE DO NOT CROSS

CRIME SCENE DO NOT CROSS

CRIME SCENE DO NOT CROSS

Scene of the December 2019 deadly shooting at NAS Pensacola that left three dead and eight wounded

## Overview

### THE NEED

On December 6th 2019, Second Lieutenant of the Saudi Royal Airforce, Mohammed Saeed Alshamrani, opened fire in one of the many classroom buildings located on-site at the Naval Airstation in Pensacola. This radically driven attack killed three American service members and wounded another eight.

### THE SOLUTION

NAS Pensacola has reviewed and selected the HAVEN Lockdown to provide lockout locations throughout the building(s) on-site. This allows visitors and staff to have access to a safe location if an attack inside should arise.

### THE BENEFIT

The HAVEN Lockdown supports the vision of security by giving the attendees peace of mind. The staff has the power to take matters into their own hands if a threat arises, improving morale and a sense of security in the organization. Their ability to quickly and instinctively act, before any law enforcement has arrived allows for on-site individuals to protect themselves until help has arrived.

*A Proactive and Reactive Solution to Potential on Base Violence*

**HAVEN**  
LOCKDOWN

## HavenLock, Inc. Lockdown Application NAS Pensacola

*The state of the art Haven Lockdown unit helps create peace of mind to secure a location*

Over the last two decades, on-base violence has driven even the strongest and most resilient Americans into feeling unsafe in their place of work. While many occurrences do not make the national news, those that do are the most tragic and violent. There are countless others that go unreported, both statistically and in the news.

### A SIMPLE, SAFE, AND SECURE SOLUTION- PROTECTION IN ANY LOCATION

Haven Lockdown allows you to securely barricade your door instantaneously with the touch of a button. In an active shooter situation, time is everything. A safety solution is useless if the implementation is difficult or time-consuming.

HAVEN combines a smart design with military-grade materials in a fast, simple device. The quick securing motion works in a "high heart rate" environment. Working with gross motor skills allows people to better protect themselves rather than relying on fine motor skills.
